

## . . . Next Step: Continuing your TPS Journey

---

### Standardized Work

**\$765.00**

This is classroom based, very specific instruction on applying skills for standardized work.

Through hands-on practice in simulated environment, you will be able to develop the skill to accurately grasp and communicate problems in the current condition through utilizing time measurement and three documents of standardized work. *Please note: you will need to bring a calculator*

- May 13, 2010 - Toluca, MX
  - May 25, 2010—Georgetown, KY
  - June 23, 2010—Georgetown, KY
  - July 15, 2010—Grand Rapids, MI
  - September 22, 2010—Georgetown, KY
  - November 11, 2010—Georgetown, KY
- 

### Problem Solving

**\$700.00**

This is classroom based training to develop the skills and thinking to utilize the TPS practical problem solving framework through using actual shop floor examples and thinking through them.

- May 14, 2010—Toluca, MX
  - May 26, 2010—Georgetown, KY
  - June 24, 2010—Georgetown, KY
  - July 16, 2010—Grand Rapids, MI
  - September 23, 2010—Georgetown, KY
  - November 12, 2010—Georgetown, KY
- 

### Material & Information Flow

**\$1,000.00**

This is classroom and shop floor training designed to develop the skill to observe the floor and identify the bottleneck and think strategically how to overcome it.
